Quick Guide Ambu[®] Manikin Management Module Display Set

In these instructions you will find out how to set up a Display Set. Only the events in a scenario that you want to perform are displayed.

1. Co	onnect the end device with the trainir	ng device
	Wi-Fi	
	Wi-Fi	
	 AmbuW No internet access 	* (i)

First turn on the training device by briefly pressing the power button located in the lower torso. As soon as the LED lights of the power button is constantly lit, you can connect to the training device via WiFi.

To do so, select the wireless network "AmbuW".

192.168.1.1

Open the browser and enter **http://Ambu.login** or **192.168.1.1** in the address bar and press enter in order to reach the start screen of the Ambu Manikin Management Module.

After accessing the page, click on the "Controlled session" button.

Ambu*	Scenarios	Algorithms	Modes	Sessions	Trainees	Events	ECG	Sounds	Display sets
	Overview Add	Import Exp	d						
New Session	Name			I					
Session View	Description								
Surveillance Vew									
Team Debriefing	Events		Name						
Quick Course			Call EMS				0		
Training Course			Call for help				0		
Database			Call physician				0		
			Check breathing				0		
Configuration			Check response				0		
			Automation of the						

Click on "Database" and on the right on "Display Sets". Click on "Add" in order to make a new display set. Select the entries you want to perform for each family (Events, ECG,Sound).

VVI Pacemaker	0
Name	
Asthma	0
Breathing	۲
COPD	0
Coughing	0
Fast breathing	0
Inspiratory stridor	0
Pulmonal edema	0

Save and it will appear "The display set was successfully saved".

2. How to use the Display set

There are two ways to use it:

1. First Option:

Click on "New Session". In the Displayset section, in the drop-down, select your entry.

eas that work for life		New Session				
	Scenario	Default scenario	-			
w Session	Displayset	All terms	2			
ession View		Test	e			
urveillance View		All items				
eam Debriefing	Algorithm	ERC 2015	-			
2uick Course	Duration	10 minutes	-			
aining Course	Manikin	AmbuMan	-			
atabase	Instructor	Instructor 1	-			
onfiguration	Training mode	Two person CPR	-			
egal Terms	Trainee 1	Trainee 1	-			
	Trainee 2	Trainee 2	•			

Ambu'		New Sessi	on
New Session	Selected scenario and display set are incompatible		
Session View Surveillance View	Scenario	Default scenario	•
Team Debriefing	Displayset	Test	•
Quick Course	Algorithm	ERC 2015	•
Training Course	Duration	10 minutes	•
Database	Manikin	AmbuMan	-

If a warning appears is because some of the things were not selected and these are part of the scenario.

Or you selected something that is not compatible with the scenario.

	Scenarios	Algorithms	Modes	Sessions	Trainees	Events	ECG	Sounds	Display set
	Overview Add	Import Export							
New Session	Name								
Session View	Test								
Surveillance View	D								
Team Debriefing									
Quick Course									
Training Course									
Database									
Configuration									

In order to fix it, click on Database and then Display sets. Select the scenario. Select the events were missing and save.

Go back to "New Session". In the Displayset drop-down select your entry, now the warning doesn't appear!

Play the scenario and start the session. Now you have just the events you want to train!

2. Second Option:

Click on Database > Scenarios

	Scenarios	Algorithms	Modes	Sessions	Trainees	Events
	Overview Add	Import Export				
• New Session	Name					
Session View	BLS defibrillation					
M Surveillance View	Default scenario					
Team Debriefing						
Quick Course				wr		
Training Course						
Database						

If Default Scenario (1) was chossen by you, it will ask you what kind of display sets you want to use.

You can modify the existing Default scenario.

Or you can add a new one by clicking on "Add" (2).

Scenarios Algorithms M	des Sessions Trainees	Events	EC
Overview Add Import Export			
Scenario	State		Action
ame	Name		
test	New state		
escription	Actions		
test			
	ECG signal		
	1" AV Block	-	
	Pulseless Electrical Activity		
isplayset	0		
Any	A Sound		
Test	Fastbreathing	-	
Any	BP Systelic		

Once you have everything set up, go back to "New Session", select the Scenario and it would appear the Display Set section in grey. This is because in the scenario, a very specific display set was difined. It can only be changed in the scenario.

		New Sessior
	Scenario	101
w Session	Displayset	Tel
ission View	Algorithm	ERC 2015
sam Debriefing	Duration	10 minutes

Back again to the scenario, If you want to have a scenario without a modification, select your specific entry.

If you want to be able to change the display set, then select "Any".

Users define if they want a specific displayset or if they allow a modification to other display sets! Play your session and enjoy!
